

GRADUATE SEMINAR SERIES FALL 2007

**CIVIL AND ENVIRONMENTAL ENGINEERING
TENNESSEE TECHNOLOGICAL UNIVERSITY**

**“Assessment of Groundwater pollution due to tannery
effluents in Pallar river basin in India through
Mass transport Modeling”**

**BY
Dr. Thangarajan
National Geophysical Research Institute, India**

**Tuesday, November 20, 2007
11.00AM-12.00PM
PRESCOTT HALL ROOM 225**

Speaker Profile:

Dr. M. Thangarajan received his MSc (Physics) from Madras University and Ph.D. in Applied Physics from the Indian School of Mines, Dhanbad. He has held a number of senior positions in the National Geophysical Research Institute, Hyderabad, the most recent being Scientist-G. He retired in 2002. His field of specialization is Assessment and management of groundwater resources and pollution. He has published more than 140 articles in journals and conference proceedings. He has written two books and edited six books and conference proceedings. He has trained about 100 young Indian groundwater scientists to model groundwater flow and mass transport systems.
